

stopmotionpro™

now everyone's a professional

Animate your first film in 6 easy steps!

1 Install SMP on XP, Vista or Windows7

2 Connect a camera. A webcam, video camera or compatible digital still is perfect.

3 Point your camera at your subject and click **capture** to take a frame.

4 Move subject and **capture** again.

5 Repeat step 4 a few times.

6 Click **play**

Congratulations!
You made your first
film with
